INTRODUCTION

Immaculate Computers and Equipment is a Technology company based in Jamaica that has been providing IT services and solutions for a variety of customers since 2010. We have made it our mission to make technology work for our clients effectively and cost efficiently. Whether the technology is new or existing technology, we take the guess out of complex systems to assist in automating business processes. We are experts in our field and we are consistently developing new and innovative ways to solve the everyday issues companies' face. We aim to exceed our customers' expectations hence our focus is customer service and technology. Whether you are a mom and pop shop or a large corporation, your satisfaction and peace of mind is our primary objective.

We offer a number of services to our clients, which include but are not limited to: consultation, Web development and maintenance, data migration and custom application, design and implementation as well as mobile applications. For more information on the services we offer, please visit our website at: www.immaculatepcja.com / <https://www.dredix.io/>

We have worked with our overseas partner dredix.io to serve clientele that ranges from model agencies to law firms across various countries including Australia, USA, Jamaica, Canada and England. Our portfolio of companies comprises of the United Nations Environment Programme (UNEP), Anthem Entertainment and Sunrise Records. Locally Immaculate Computers and Equipment has successfully deployed our electronic receipts software in several companies in Jamaica which includes The Kidz Klinik, Danhope Radiology, ProPhysio Therapy, Constant Smiles Dental and a myriad of other healthcare facilities continue to benefit from the solutions.

We have a proven track record of providing organizations with high quality solutions that are effective and easy to manage. Our experienced team ensures high quality training and maintenance and provides high touch point services tailored to the client and end user experience.

The purpose of this document is to introduce our Pharma Helper solution. The solution will allow customers to transmit the relevant information to their pharmacy for processing health cards and determine the balance to be paid by a customer.

THE COMPONENTS

Pharma Helper Application: For only **US\$50.00** per month this application will enable Pharmacies to accept a customer's health card online for processing in the Pharmacy's existing software to determine how much it will cover. Customers will also be able attach a prescription for filling in advance before taking in the original. Customers and bearer (delivery agent) where applicable will have the ability to send information directly to the Pharmacy over a secure connection to process in advance. Due to the sensitive nature of prescription drugs this data is **NOT** saved in the Pharma Helper application. The information is automatically deleted from the system after 30 minutes. The solution can also be used to facilitate curbside and in-store pickup.

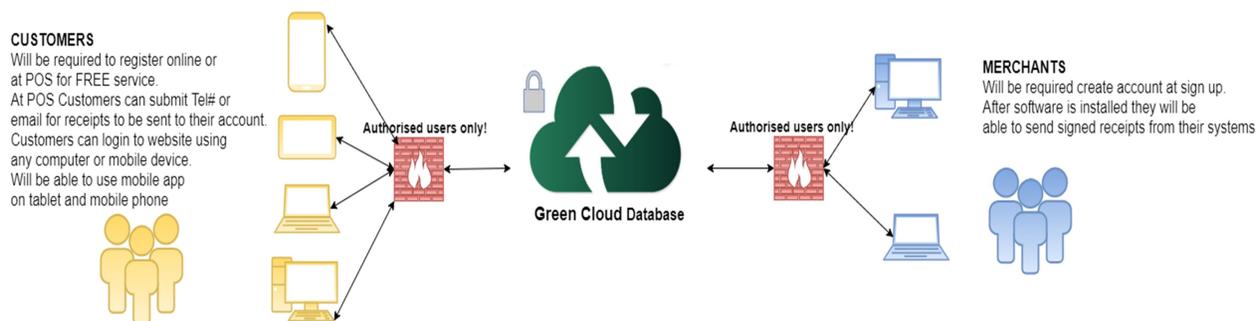

Send Card details and Prescription digitally to Rx

Green Cloud Electronic Receipts: Will enable Pharmacies to send receipts digitally to cardholders for signing. After signing the digital record is then uploaded and stored in the Pharmacy's cloud account. A copy of the receipt will be sent via email or SMS to customers. The receipt can then be accessed by the Pharmacy and cardholder in real time when required.

OVERVIEW OF E-RECEIPT SYSTEM FLOW

Send customers receipt digitally via Email or SMS

Green Cloud E-Receipt Samples:

Customers can determine if they need receipt via email or SMS.
